The HEALinc Future Health Innovation Summits are uniquely positioned and designed to break through the silos in the sciences and create collaborative approaches needed to accelerate access to regenerative medicines, longevity, and increased quality of life for patients with unmet needs.

We target the most esteemed professionals in their field to bring together communities of scientists, clinicians, healthcare providers, investors, policy makers, regulators, commercial entities, and pharmaceutical companies.

Take a moment to browse our website at <https://www.healincsummit.com> to review the top luminaries, entrepreneurs, and key opinion leaders already committed to speaking at the 2023 Summit. We encourage you to check back for updates, as our list of internationally acclaimed speakers is growing exponentially every week.

Join us as we continue to build on the platform established at our Inaugural Summit in 2018.

I look forward to discussing how we can share the HEALinc vision and partner with you to create and advance the future of health.

Live long and be well, the future of health.
