

HEALinc FUTURE HEALTH INNOVATION SUMMIT

Dr. Desirée Cox, MD, MPhil, PhD
CEO & Founder

Hi there,
Dr. Desirée Cox here. I trust all is well on your end.

On behalf of the entire HEALinc team, I want to extend my sincerest thanks and appreciation for your involvement in the 2023 HEALinc Future Innovation Summit from April 17th-19th, 2023 at the Atlantis Resort on Paradise Island, The Bahamas. We are delighted to have you join our rapidly growing list of international luminaries, policy makers, investors, scientists, key opinion leaders and commercial entities that are already committed to speaking at the Summit.

The 2023 HEALinc Summit is shaping up to be our most impactful one yet. Take a moment to browse our website at <https://www.healincsummit.com> to review many confirmed presentors, including Aubrey de Grey (Longevity Escape Velocity (LEV) Foundation); Cassandra Vieten; Naveen Jain (Viome); and Professors Jean M. Hébert (Albert Einstein College of Medicine), Joshua Hare (Longeveron and University of Miami), Tom Rando (Stanford University), David Furman (Stanford and the Buck Institute), Evan Snyder (Sanford Burnham Prebys (SBP) Medical Discovery Institute), Katarina Le Blanc (Karolinska Institute, Sweden) and more. We encourage you to check back for updates, as our speaker list continues to increase by the week.

As we finalize our program, we will be reaching out via email to all speakers between **Friday, November 25th** and **January 10th 2023** to provide a detailed checklist of Summit logistics and next steps. This email will include the following information and attachments:

- The 2023 HEALinc Summit Speaker Agreement (to be signed and returned)
- Specifics on your presentation topic and time limits
- Specifics on speaker arrangements and accommodations

If you require additional clarification after receiving your speaker email, please feel free to schedule a meeting with me through my assistant, Erin Ambrose, at e33ambrose@gmail.com. I am happy to expand upon specifics or answer any questions you may have.

I look forward partnering with you as we break through the silos in the sciences and create collaborative approaches for accelerated access to regenerative health technologies.

Live long and be well,

Desiree Cox-Maksimov
