

2025 HEALinc Global Summit

Theme: New Opportunities in Healthy Longevity and Regenerative Medicine

April 27th-29th, 2025, Atlantis Paradise Island Resort, The Bahamas

Who should attend? Who should speak/sponsor? And why?

HEALinc Global Summits: Our Focus

The fast-evolving field of longevity and regenerative medicine is seeing a growing number of conferences devoted to these subjects. The HEALinc Global Summit focuses specifically on the global access and translational science aspects of these new paradigm therapies.

The HEALinc Global Summits address these questions: What therapeutic applications are available? What's the safety and efficacy evidence of the therapeutic applications being offered? How and where can patients safely access these new therapies? What's the best advice providers can offer patients?

We focus on:

- Connecting the dots between healthy longevity, regenerative medicine and whole-person health (which incorporates the importance of the environment, creativity, personal empowerment, psychedelics and mind-body-spirit practices that support the mental and physical wellbeing required for healthy longevity).
- Connecting progressive US and European-based healthcare providers and companies with global partners for delivering safe, high-quality longevity-enhancing and regenerative therapies to patients.
- Connecting policy influencers and policymakers, as well as CEOs, founders, scientists, and healthcare providers from top-tier facilities outside of the US and Europe (such as Panama, Mexico, Costa Rica, The Bahamas and the Caribbean, UAE, Singapore, India, Indonesia, and Malaysia) to advance global patient access to safe, evidence-based longevity and regenerative therapies.
- Helping healthcare entrepreneurs bridge the valley of death by establishing 'real-world' registry studies and patient-sponsored programs in various jurisdictions that allow patients with unmet needs to receive safe, evidence-based longevity and regenerative therapies.

HEALinc Global Summits: Who Should Attend

- **Top-tier scientists and progressive healthcare providers (doctors, nurses, etc.) committed to whole-person health, healthy longevity and regenerative medicine.**
- **Policymakers and policy influencers from all over the world committed to making a diverse range of longevity-enhancing therapies and regenerative medicines accessible to people everywhere.**
- **Healthcare entrepreneurs/founders and CEOs from the US, Europe, Latin America, the Caribbean, Africa, the UAE and Asia who provide longevity-enhancing and regenerative therapies to patients.**
- **Thought-leaders and investors in the whole-person health, longevity, regenerative medicine and wellness space.**
- **Patient advocates committed to expanded global access of new medicines for the patient communities they represent and serve.**
- **Biohackers.**
- **Medical tourism specialists (including lawyers and concierge service providers).**
- **Members of the public interested in learning about safe, evidence-based new medicines that can help them live better and longer.**

See our track record and statistics from previous HEALinc Summits (2018, 2019, 2023, 2024) in our *HEALinc Global Summit Summary PDF*.

2025 HEALinc Global Summit: Why Speak? Why Sponsor?

- **Benefits for companies and facilities offering longevity-enhancing and regenerative therapies to patients in the US, Europe, Latin America, the Bahamas (and the Caribbean), the UAE, Africa, and Asia include:**
 - A 35-minute speaking slot to present the scientific and ‘real world’ evidence of the safety and efficacy of therapeutic applications offered by the companies (see [HEALinc Summit Sponsorship PDF](#))
 - Networking opportunities with peers, providers, and partners from all over the world (see [HEALinc Summit Sponsorship PDF](#))
 - Booth in Exhibition Hall (see [HEALinc Summit Sponsorship PDF](#))
 - Advertising (see [HEALinc Summit Sponsorship PDF](#))
 - Opportunity to publish scientific and ‘real world’ data presented at the HEALinc Summit in the International Journal of Translational Science (IJTS). *[Established in 2024 by River Publishing, IJTS is a peer-reviewed journal that is searchable on Google Scholar. The journal will be searchable on PubMed by December 2024]*
- **Benefits for thought-leaders and investors in the healthy longevity, regenerative medicine and ‘whole-person’ health space (which incorporates the importance of the environment, creativity, personal empowerment, and mind-body-spirit practices for mental and physical wellbeing) include:**
 - A 35-minute speaking slot to get the word out about the scientific, evidence-based approaches and programs you deliver to improve ‘whole-person’ health, longevity and regenerative health and wellness at a population level (see [HEALinc Summit Sponsorship PDF](#))
 - Networking opportunities with peers, providers, and partners from all over the world (see [HEALinc Summit Sponsorship PDF](#))
 - Booth in Exhibition Hall (see [HEALinc Summit Sponsorship PDF](#))
 - Advertising (see [HEALinc Summit Sponsorship PDF](#))
 - Opportunity to publish scientific and ‘real world’ data presented at the HEALinc Summit in the International Journal of Translational Science (IJTS). *[Established in 2024 by River Publishing, IJTS is a peer-reviewed journal that is searchable on Google Scholar. The journal will be searchable on PubMed by December 2024]*
