The HEALinc Future Health Innovation Summits are uniquely positioned and designed to break through the silos in the sciences and create collaborative approaches for proactive pathways to regenerative health, longevity, and increased access to advanced regenerative medicines and longevity technologies that help people live better and longer. We target the most esteemed professionals in their field to bring together communities of scientists, clinicians, healthcare providers, investors, policy makers, regulators, commercial entities, and pharmaceutical companies.

Take a moment to browse our website at www.healincsummit.com. Stay tuned for updates in January 2024 with delegate testimonials, photographs, and our line-up of the top luminaries, entrepreneurs, scientists and healthcare providers that will be speaking at the 2024 Summit. We encourage you to check back for updates, as our list of internationally acclaimed speakers is growing exponentially every week.

Join us as we continue to build on the platform established at our Inaugural Summit in 2018. I look forward to discussing how we can share the HEALinc vision and partner with you to create and advance the future of health.

Live long and be well,

Dr. Desirée Cox, MD, MPhil, PhD
